25X1 - 2 -25X1 At 5:45 p.m. on 15 September, T-34/85 tanks 1 T-34 chassis, 2 trucks and personnel were loaded onto an undetermined number of 25X1 flatears and 4 boxcars at the Cottbus railroad station. The train departed 25X1 at about 6:30 p.m. The tank imprints came from the Sachsendorf Kaserne. From 10 to 15 August, about 200 soldiers with red-bordered black epaulets from the Sachsenwerk Kaserne daily practiced river crossing at the Steintelchwuchle in Cottbus. They built foot bridges and a bridge, employing rafts 25X1 and two pneumatic boats. On 18 August, entraining at the Cottbus railroad station was practiced and, on 19 to 20 August, with 2 T-34 tanks. The tanks involved came from the Sachsendorf Kaserne in the morning and returned there in the evening. 25X1 Comment. Since June, elements of the 9th Mecz Div were frequently reported at the post. Other elements were in Weisswasser for firing practices 25X1 in mid-September. The bulk of the division was at the Forst Tauer training 25X1 camp, however, 25X1 The tanks loaded on 15 September also belonged to the 25X1 regiment which is thus confirmed in Cottbus until 29 June 1953.
